pdf-sync

Thanks

Thank @KayFly (https://github.com/kayfly) for designing the Logo for pdf-sync

Sync

pdf-sync will sync your read process between your different devices

pdf-sync 是一个同步阅读进度的 pdf 阅读工具

Toolbox

Now you can enjoy your self pdf in toolbox

现在你可以在工具栏打开你自己的pdf阅读了

How to config yourself server and app

you can download source code and config for yourself

你可以自己下载源码，并配置成你自己的服务器

Pouchdb

open pouchdb-server console: {URL}/_utils

打开pouchdb-server 控制台

set admin patry user and passwd

设置自己的用户到 admin 组

create a Databases named pdf-sync

创建 pdf-sync 数据库

set permissions for your db {add user in admins options}

将数据库设置权限到先前建立的用户上

Config.js

change string to your setting which configure above in ./config.js

将源码根目录中config.js的相关信息配置成上述设定

```
const config = {
//  server_origin:'http://127.0.0.1:3456'
  server_origin: 'your_db_url',
  server_admin: 'your_db_admin',
  server_passwd: 'your_db_admin_passwd',
// baidu trans api config
  translate_url: 'http://api.fanyi.baidu.com/api/trans/vip/translate',
  translate_appid: 'your appid',
  translate_key: 'your key',
  translate_mode: 'hybrid or local'
};
export { config, };
```
